

Step-by-Step Setup Guide for AutoMarket

✓ Step 1: Install Google Chrome

- Required for browser automation.
- If already installed, you can skip this step.

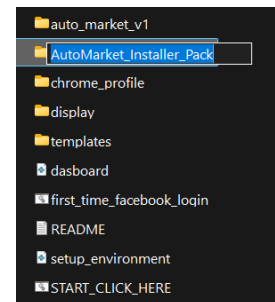

Name	Date modified	Type	Size
 ChromeSetup	7/2/2025 2:45 AM	Application	11,067 KB

<https://www.google.com/chrome/>

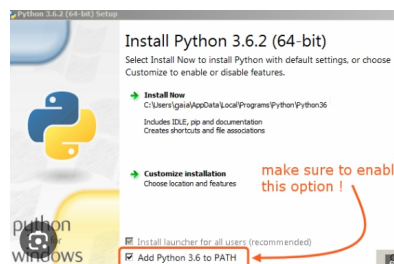

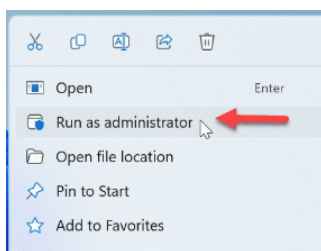

- Download from:

✓ Step 2: Install Python 3.x

- Required to run the program.
- Open the folder AutoMarket_Installer_Pack

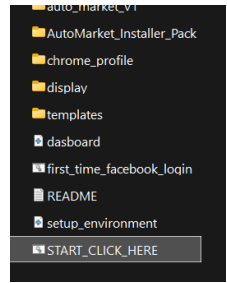

- Right-click on `python-3.13.5-amd64.exe` and choose **"Run as administrator"**

- IMPORTANT: Make sure to check **"Add Python to PATH"** before clicking Install Now
-

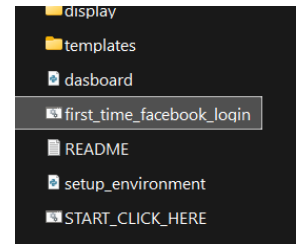

✅ Step 3: Run the program

- Double-click on `START_CLICK_HERE.bat`
- This will:
 - Install all required dependencies
 - Set up everything automatically
 - Launch the dashboard in a browser window

⚠️ First-Time Facebook Login

- After the dashboard appears in the browser, you can close:
 - The browser
 - The CMD window
- Then, run `first_time_facebook_login.bat`
- A browser will open — log into your Facebook account manually.

- ✅ Your login session will be saved.
- ✅ You only need to do this **once**.

🔄 Next Time:

- From now on, simply run `START_CLICK_HERE.bat`
- No need to log in again
- Everything will launch automatically using your saved profile

🎉 You're all set!
